Honorable Commissioner of Patents and Trademarks
Washington D. C. 20231

Sir:

REMARK

In the office action of April 13, 2005 the office required an election of species between Species 1 of claims 1-21 and species 2 of claims 22-24. The office also required the applicant to list the claims readable on the species of claims 1-21. It is believed that according to the office designation of species the species the office refers to in claims 1-21 is the universal cartridge alone. If the species is the universal cartridge alone (i.e. without the fluid or liquid), the claims readable on only the universal cartridge are claims 1-21. As claims 22-24 include the body of liquid those claims are not readable on the universal cartridge alone. If the applicant is incorrect in the species identification the examiner is requested to call the applicant's attorney at the below listed number.

Respectfully submitted,

JACOBSON AND JOHNSON
